Congratulations on your decision and commitment to become a DCDC. You are on your way to earning an ICT design certification that is globally recognized and highly respected in the industry.

Dedicated information and communications technology (ICT) professionals such as yourself recognize and understand that holding a BICSI credential makes a difference in your career and the ICT industry. After earning the Data Center Design Consultant™ (DCDC™) credential, you will be recognized as a data center design consultant, who is knowledgeable and experienced in the principles of Data Center Design and Construction. We appreciate your professional commitment in demonstrating the highest global standard by acquiring a DCDC certification.

We develop and deliver the highest-quality credentialing programs that validate mastery in the field of ICT and contribute to the continued improvement of individual and organizational performance. We work closely with ICT experts from around the world to ensure that our programs are up to date and relevant for today’s competitive business environments.

This handbook provides an overview of the DCDC credential, including eligibility and recertification requirements. You will find detailed information to help guide you through the entire certification process.

We wish you much success,

Todd W. Taylor, RCDD, NTS, OSP
BICSI President

John H. Daniels, CNNM, FACHE, FHIMSS
BICSI Executive Director & Chief Executive Officer

Questions:
Phone: +1 813.979.1991 or 800.242.7405
(USA & Canada toll-free)
Email: credentialing@bicsi.org
ICT encompasses the design, management, integration and installation of pathways, spaces, optical fiber- and copper-based distribution systems, wireless-based systems and infrastructure that supports the transportation of information and associated signaling between and among communications and information gathering devices. Through courses, conferences, publications and professional credentialing programs, BICSI staff and volunteers assist ICT professionals in delivering critical products and services, and offer opportunities for continual improvement and enhanced professional stature. BICSI established its credential programs to provide a level of assurance to the industry and to consumers that an individual has knowledge in a designated area of ICT design or installation. Our professional designations are valued globally and are recognized throughout the ICT industry.

Data centers have become more complex to design and bring online due to the demand for greater capacity, increased efficiency and higher levels of utilization. BICSI developed the DCDC Credentialing Program to educate ICT professionals in the proper methods of designing. While design is still a central part of the DCDC description, it was found that DCDCs are being utilized within all facets of data centers, including strategic planning, operations, management and evaluation.

Those who achieve the DCDC designation have demonstrated an understanding of mechanical, electrical and telecommunication issues, such as operational and security assessments that are increasingly being requested. ICT professionals seeking a profession in data center design are encouraged to earn the DCDC.

**DCDC Definition**

The DCDC designs, coordinates or manages the integration of the documentation, plans, specifications, construction and ongoing operational management activities of a data center facility while meeting applicable codes, standards and industry best practices. This includes addressing the requirements of the sponsor, architects, engineers, contractors, stakeholders, service providers and others involved.

**DCDC CREDENTIALING PROCESS OVERVIEW**

**Credential Expiration**

Occurs one year after your expiration date if your recertification requirements have not been met.

**Credential Suspension**

Occurs 90 days after the credential expiration date if you have not fulfilled the recertification requirements. Credential is inactive and you are unable to use it.

**Credential Recertification**

You can complete the recertification process once you have met all the recertification requirements.

**Credential Maintenance**

You are required to earn 36 continuing education credits (CECs) within your three-year certification cycle.

**About BICSI and the DCDC Credential**

BICSI established its credential programs to provide a level of assurance to the industry and to consumers that an individual has knowledge in a designated area of ICT design or installation. Our professional designations are valued globally and are recognized throughout the ICT industry.

**Things to Know About the DCDC Credential**

- Leading designation in the modern data center market, spanning throughout 29 countries
- Sought after by multidisciplinary trade professionals
- Essential in all aspects of the project: new, upgrade or rebuild
- Essential to distinguish your in-demand skill set
- Internationally developed and applied globally
- Recognized across all major disciplines on an international basis
- Part of a growing and leading-edge industry
Exam Delivery Statement
Pearson VUE is the exam delivery provider of BICSI exams. Pearson VUE is the world's largest learning company with more than 35,000 employees working across the globe. They are the leader in computer-based testing, with testing centers located globally.

Non-Discrimination Policy
It is the policy of BICSI and Pearson VUE that no individual shall be excluded from the opportunity to participate in the BICSI DCDC Credentialing Program on the basis of gender, ethnic origin, national origin, religion, age or disability.

Sanctioned Countries
BICSI is committed to conducting business in compliance with the United States Office of Foreign Assets Control (OFAC) sanctions programs, country information and the Specially Designated Nationals (SDNs) and Blocked Persons List. This includes any individual with a residence or a nationality of Iran, Syria, Crimea, Cuba or North Korea.

Individuals who present approved candidate identification during the admissions process showing a non-sanctioned country permanent residence may test and receive certifications. For more information click here.

Contact Information
All questions and requests for information about the BICSI DCDC Credentialing Program should be directed to:
BICSI, 8610 Hidden River Parkway, Tampa, Florida 33637
Tel: +1 813.979.1991 or 800.242.7405 (USA & Canada toll-free)
Email: credentialing@bicsi.org

All questions and requests for information about exam scheduling should be directed to:
Pearson VUE, 5601 Green Valley Drive, Bloomington, Minnesota 55437
Phone: 866.904.4432 (USA & Canada toll-free)
Web: pearsonvue.com/bicsi

Name, Address and Email Information
BICSI will send you important information through email, text and postal mail. It is your responsibility to keep the contact information on your online BICSI Profile at bicsi.org current. Please log onto your BICSI profile and make sure your home address and cell phone numbers are up to date so you do not miss any important notifications.

ABOUT BICSI AND THE DCDC CREDENTIAL

DCDC Credentialing Process

THE FIVE PHASES

Decide  Prepare  Apply  Test  Recertify

Exam Eligibility Requirements
Data Center Design consultant related work experience may include, but is not limited to, the performance of the data center design, construction and/or operations as defined below:

PHASE 1: DECIDE

Data Center Design may include:
- Site surveys
- User needs analysis
- Development of design plans for data center systems and integration
- Management of stakeholder requirements
- Work drawings
- Specifications
- RFP creation
- Project coordination with P.E.’s, Architects, etc.

Data Center Construction may include:
- Installation
- Testing
- Project site supervision
- Quality assurance
- Systems implementation and commissioning

Data Center Operations may include:
- Data center facilities management
- Operational support and maintenance

Scope of a Data Center Design Consultant:
The DCDC designs, coordinates or manages the integration of the documentation, plans, specifications, construction and ongoing operational management activities of a data center facility while meeting applicable codes, standards and industry best practices. This includes addressing the requirements of the sponsor, architects, engineers, contractors, stakeholders, service providers and others involved.

Applicants must meet specific educational and/or work experience criteria at the time they submit their application in order to be eligible to take the DCDC exam. Eligibility options are outlined below:

- Hold a current Registered Communications Distribution Designer® (RCDD®) certification.
- OR
- Have two (2) years of verifiable full-time equivalent work experience in data center design, construction and/or operations and hold a current BICSI Technician®, Registered Telecommunications Project Manager™ (RTPM™), or Outside Plant™ (OSP™) certification.
- In place of holding a certification, a degree in architecture, engineering or construction management is also acceptable.
- OR
- Three (3) years of verifiable full-time equivalent work experience in data center design, construction and/or operations within the past seven (7) years.
GI Bill Information
The BICSI DCDC exam may be eligible for GI Bill reimbursement for those who qualify. The VA pays only the exam costs, or up to $2,000 for each exam. Payment is issued after you submit proof of payment to the VA. The VA will pay for exams, even if you are unsuccessful in your attempt to earn a certification. For more information, including an application for reimbursement of exam fees, please visit the BICSI Credentialing web page at bicsi.org/gibill. Please note that BICSI exam requirements and retest policies still apply.

U.S. Military Tuition Assistance Program
Through the Credentialing Opportunities On-Line Program, qualifying U.S. military members can use their ICT-related installation, design and project management experience toward earning a BICSI credential. Recognized worldwide, our certification programs help you position yourself as an expert in the ICT industry and prepare you for a life-long career in an in-demand industry.

More information on the four available assistance programs can be found online at bicsi.org/COOL.

Exam Copyright
All exam questions are the copyrighted property of BICSI. Any attempt to reproduce all or part of an exam is strictly prohibited by law. Such attempts include, but are not limited to, removing materials from the exam room, aiding others in reconstructing any portion of an exam by any means, or selling, distributing, receiving, or having unauthorized possession of any portion of an exam. Alleged copyright violations will be investigated and, if warranted, prosecuted to the fullest extent of the law. It should also be noted that exam scores might be invalidated in the event of this type of suspected breach.

Exam Preparation
BICSI conducts a Job Task Analysis (JTA) every 3-5 years with a large group of volunteer ICT Subject Matter Experts (SME) who hold the given certification. BICSI uses the JTA to make modifications and upgrades to the credentialing programs as part of the credentialing industries best practices.

The exam blueprint identifies the duties and tasks that will be tested. The exam is developed from the exam blueprint, which is the outcome of the JTA and uses the following publications as the reference material for the exam:
- ANSI/BICSI 002-2019, Data Center Design and Implementation Best Practices Standard

Other materials consist of the following:
- DCDC Exam Blueprint and Job Task Analysis

Suggested Study
No two candidates come to the exam with the same knowledge base, as ICT experience and educational backgrounds vary; therefore, it is not possible to train for or teach to the exam in its entirety. The best way to prepare is to review and study each functional area of the exam content outline for the DCDC Exam, as well as the suggested materials below:
- 125-plus hours of study from the above reference materials
- DC101: Introduction to Data Center Design (BICSI CONNECT online course)
- DC102: Applied Data Center Design and Best Practices
- DCDC Online Test Preparation Course (BICSI CONNECT online course)
- ANSI/BICSI 002-2019, Data Center Design and Implementation Best Practices Standard

Exam Specifics
Number of Questions: 100
Allotted Examination Time: Two hours

The exam contains enhanced items which include multiple choice questions with two correct answers, drag and drop and hot spot identification.

Reasons to Become an DCDC
- Recognized by the ICT Community and Employers
- Provides a Unique Skillset to an ICT Designer
- Uses the Latest Technologies, Methods and Best Practices
- Critical in Modern High Bandwidth Applications
- Engineered by Data Center Experts
- Recognized Globally

I believe that the DCDC credentialing program is the most prestigious and comprehensive program available in the industry and it is a tool for knowledge.

-Nedal Shanti, RCDD, DCDC, CT Interface Manager - Airport Master System Integrator, RIKAZ Global, LLC Seeb, Oman

</table>
**PHASE 3: APPLY**

**Application Process**
The following items must be completed and submitted to BICSI on your BICSI online profile.
- A fully completed and descriptive work history including contact information.
- Current resume. Last ten years of work history must be included.
- If applicable, a certified or original copy of degrees, diplomas and/or certifications.

Education, credentials and your ICT work experience will be verified. Based on the verification process of your DCDC design experience, BICSI reserves the right to require additional submittal as proof of experience. Failure to provide these additional requirements will result in rejection of the application.

**Application Processing**
BICSI processes applications in the order they are received. A nonrefundable application fee must accompany your application.

Please allow 30 days for approval.

**Fees**

**Incomplete Applications**

Exam candidates whose application is submitted without all the requirements will receive an email outlining what information is missing and when it is due. The missing information must be submitted by the due date or the application will be considered incomplete and will not be accepted. The exam application fee will be forfeited.

**Application Denials**

An application will not be approved, and/or the candidate's authorization to test may be revoked for any of the following reasons:
- Failure to meet the minimum eligibility requirements
- Application is incomplete
- Falsification of information on the application
- Misrepresentation of work experience or other information on the application
- Violation of testing policies and procedures

**Refund Policy**

Application fees are not refundable or transferable, including those found to be ineligible.

**Legal Name**

When submitting your application, use your full legal name as it appears on your unexpired, valid, government-issued official identification documentation. This is the name that the testing administration site will use to verify your exam on your exam day. This is also the name that will appear on your official certificate once you successfully pass the exam.

**Eligibility Dates**

Your application is valid for one year from the date it is approved. This is referred to as your eligibility date in your Exam Authorization Letter.

**Waiting Period**

During any exam eligibility period (one year from the date of application approval), there is a 30-day waiting period between each unsuccessful exam attempt. After a third unsuccessful attempt, a 90-day waiting period will begin. You may be allotted additional attempts after the 90-day waiting period if your exam eligibility period is still valid.

Each exam retest requires the appropriate exam retest fee. If you do not pass the exam within your exam eligibility period, you can reapply for the exam by submitting a new application.

**Terms and Conditions**

You must agree to the following statements:
- I agree to inform BICSI without delay, of matters that can affect my capability to continue to fulfill the certification requirements.
- In the event of a certification suspension, I will refrain from any use and/or further promotion of the certification while it is suspended.
- In the event of withdrawal or revocation of the certification, I will refrain from use of all references to a certified status.
- I will make claims regarding certification only with respect to the scope for which certification has been granted.
- I will not use the certification in such a manner as to bring BICSI into disrepute, and not make any statement regarding the certification which BICSI considers misleading or unauthorized.
- I will not use certification status or the credential in a misleading manner.
- I certify that I will not provide, receive or release any confidential exam information and/or materials (including, but not limited to: recording, copying, disclosing, sharing, publishing or otherwise transmitting exam information by any means and for any purpose) or participate in fraudulent test-taking practices.
**PHASE 4: TEST**

**Requests for Special Accommodations**
BICSI’s Registration & Credentials Supervision Committee complies with the Americans with Disabilities Act (ADA) and shall ensure no individual is deprived of the opportunity to take a BICSI certification examination solely by reason of a disability as defined under the ADA. Candidates must submit a written request and recent (within the last three years) supporting documentation related to disability needs. The request and supporting documentation must be received at least 30 calendar days prior to the examination. Requests for special testing accommodations require documentation of a formally diagnosed and qualified disability by a qualified professional who has provided evaluation or treatment for the candidate.

**Appeal of Denial of Request for Special Accommodations**
Candidates who are denied their request for Special Accommodations may file an appeal with BICSI’s Registration & Credentials Supervision Executive Committee. The decision of Registration & Credentials Supervision Executive Committee is final.

**Credentialing@bicsi.org**
- Attn: RCSC Appeal.

**How to Schedule**
BICSI partners with Pearson VUE to deliver the DCDC exam in a computer-based testing format. Pearson VUE will notify you of any changes to test site availability due to bad weather, technical issues or other unscheduled events.

Once your application is approved, you will receive a BICSI Exam Authorization Letter by email confirming your approval. The authorization letter includes your candidate ID, first attempt exam fee voucher, as well as scheduling information.

We encourage you to schedule your exam appointment date as soon as you are approved. Scheduling early increases the chance you will receive your preferred testing date, time and location.

When scheduling an appointment, have the following information available:
- Your name exactly as it appears on your valid, unexpired government-issued ID
- Your candidate ID number
- The name of your exam sponsor (BICSI)
- The exam for which you are approved (DCDC-003)
- Your preferred appointment date, time and location
- First attempt exam fee voucher

To schedule online, visit pearsonvue.com/bicsi and click on “create an account” or “sign in,” if you already have a Pearson VUE account.

You can also schedule on the phone. To do so, call 888.602.6941. International phone numbers may vary. Please refer to the Pearson VUE website for alternate numbers, if needed.

**Rescheduling or Cancellation Policy**
You must contact Pearson VUE at least one business day prior to your scheduled appointment if you would like to reschedule or cancel your testing appointment. Rescheduling or canceling less than one full business day prior to your appointment may result in forfeiting your exam fees.

**Exam Fee**
Your first attempt exam fee is included in your application fee and is paid directly to BICSI. The first attempt exam fee includes registration and testing at any Pearson VUE location, and an exam score report for unsuccessful attempts. In the event you are unsuccessful, exam retest fees apply and are paid directly to Pearson VUE.

**Exam Identification & Conduct Requirements**
The DCDC certification exam is administered in highly secure testing centers. All exam candidates will be required to provide proof of identity with an unexpired original government-issued photo ID with signature, such as a driver’s license, a passport or military ID. The name and photo on the primary or secondary ID must exactly match the name on the candidates Exam Authorization Letter.

You will be required to provide a secondary ID. The following are acceptable forms of secondary identification:
- Valid employer identification card
- Valid credit card with signature
- Valid bank card with photo

**Examples of Acceptable Names on Required ID**

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Trained proctors will supervise the Pearson VUE testing centers. Irregularities observed or suspected by the proctors, or identified by subsequent statistical analysis of your answers on the exam, may result in your removal from participation in the exam or invalidation of your score. Irregularities include, but are not limited to, creating a disturbance, giving or receiving unauthorized information or aid to or from other examinees, or attempting to remove materials from the testing room. BICSI reserves the right to investigate each incident of misconduct or irregularity.

Candidates must be able to use a computer and mouse.

Candidates are not allowed to bring any items into the testing room (phones, watches, hats, etc.). All necessary items will be available during the exam, including calculators and a whiteboard for scratch paper.

There are no scheduled breaks during the exam. If a break is needed, the break will count towards the two hours you have to complete the exam.
Results
After completing the examination, candidates who pass the exam will be notified of their passing status immediately at the testing facility. Candidates who are unsuccessful on the exam will be provided a score report. The score report is an explanation of your performance level on each of the topic areas covered on the exam and is not an actual score. Each section has a different weighting based on the number of questions in each section. One section may have a smaller or larger number of questions than in the other sections. It is meant to provide you with the areas for which you may need some additional study.

Candidates who pass the exam will receive an official congratulatory letter and a credential certificate. The letter confirms that you successfully completed the DCDC certification process and also gives instructions on how to obtain the DCDC logo and digital stamp. The certificate will be sent four weeks after the exam. If you have a mailing address outside the U.S., please expect 8-10 weeks for receipt of your certificate packet. You can also download an electronic version of your certificate online.

Retest Information
There is a 30-day waiting period between each unsuccessful exam attempt. After a third unsuccessful attempt, a 90-day waiting period will begin. You may be allotted additional attempts after the 90-day waiting period if your exam eligibility period is still valid.

Each exam retest requires the appropriate exam retest fee. If you do not pass the exam within your exam eligibility period, you can reapply for the exam by submitting a new application.

Comments
If you would like to provide a comment on a specific question on the exam and have it reviewed by the RCSC, you may do so by making a comment in the exam using the comment feature. If you answer the question incorrectly and the committee determines a re-score, changing your final score from fail to pass, BICSI’s Credentialing Department will notify you by email within 30 days of your exam. The time spent on commenting on questions is allotted in the 2-hour exam total time and only comments made during the exam will be reviewed.

DCDC Credential Registration Period
Your DCDC credential is valid for three complete calendar years, with an expiration date of 31 December. Your credential will be valid for the remainder of that calendar year in which you first passed the exam plus an additional three years, regardless of the month in which you passed the exam. For example, if you earned your DCDC certification on 20 September 2017, your credential expiration date would be 31 December 2020.

Recertification Requirements
Recertification is an important part of any respected certification program and it is required to maintain a certification after passing the exam. Recertification helps to ensure the validity and credibility of the DCDC credential. BICSI views learning as a life-long endeavor and places an emphasis upon continuing education as part of maintaining your DCDC status.

It is the DCDC’s professional responsibility to ensure that all requirements and conditions for recertification are satisfied and submitted to BICSI prior the credential period ending. BICSI issues recertification reminders as a courtesy, but it is the credential holder who is ultimately responsible for keeping track and documenting continuing education credits (CECs) and any other requirements of the recertification process.

Within each three-year designation period, beginning when the exam is passed, all DCDCs must obtain a minimum of 36 approved CECs to recertify. If you do not recertify by your designation period end date, you may no longer use your DCDC credential or represent yourself as certified.
**Recertification Fees**

**Recertification Audit**

The RCSC has implemented a Recertification Audit Policy. Your CEC submissions are subject to random audit no later than 30 days after you recertify your credential.

### ALL CREDENTIAL HOLDERS ARE SUBJECT TO AN AUDIT.

As a credentialing body, BICSI’s Registration and Credential Supervision Committee (RCSC) requires certification maintenance to protect the quality and integrity of the certification programs. Knowledge and skills required for competent occupational and professional performance change over time. This maintenance process encourages credential holders to remain current in their field, it increases confidence among the public, employers and other stakeholders.

BICSI’s RCSC requires those holding a BICSI credential to participate in certification maintenance by adhering to the recertification requirements for the credential and to adhere to the Continuing Education Credit (CEC) Program at bicsi.org/cec in order to retain their certification.

As a BICSI credential holder, you have consented to the policies, processes and procedures of BICSI’s credentialing program which includes the Continuing Education Credit Program and adherence to the terms of the audit process. This means that all CEC documentation has been reviewed by you and that you are acting in accordance to these policies and procedures.

The recertification audit serves as a method to ensure that credential holders are meeting the minimum standards to maintain the knowledge and skills needed to remain current in the field of Information and Communications Technology (ICT) in cable infrastructure and design.

Please continue to submit CECs and supporting documentation as you earn them to easily keep up with the audit process. Please maintain copies of your records for 6 (six) months after recertifying your credential in case you are randomly selected for an audit.
Use of the Designation
Professionals who have met the certification standards defined by BICSI and who maintain their credential through the recertification process are authorized to use the DCDC designation, including a DCDC stamp.

Adding your DCDC credential to your professional profile will draw special attention to your achievement, and to the time and discipline involved in pursuing and attaining your goal. You may include your credential on business cards, in resumes, on your personal web pages, in bylines for articles or blog posts, and in email signatures.

DCDC Stamp
We encourage you to use your DCDC stamp whenever appropriate. You are eligible to receive a complimentary digital DCDC stamp. Certification holders are also able to purchase a self-inking stamp from BICSI. The cost per stamp is $25, including tax and shipping, and can be ordered by emailing credentialing@bicsi.org.

Credential Verification
The names of current credential holders are not considered confidential and may be published by BICSI. Published information may include name, city, state, country and organization. The names of all professionals holding the DCDC certification will be automatically listed in BICSI’s online Credential Holder Search Directory, searchable by city, state and country. It can be found online at bicsi.org/verify.

Records Retention
BICSI retains paper documentation for two years. You must retain copies of all documentation sent to BICSI.

Certificate Frame
Show your BICSI certification pride by ordering a high-quality frame for your new certificate. Visit: framingsuccess.com and type “BICSI” in the search field.

Reinstatement Policy for Lapsed Credential Holders
Reinstatement of a lapsed credential is allowed under certain circumstances. Eligibility is available to any credential holder who has lapsed recertification for no more than two terms past the credential’s original expiration date and the procedures to reacquire your credential is as follows:

Option 1
- Retest.

Option 2
- Provide documentation for the continued work of a DCDC performed over the lapsed period.
  - List any ICT training attended during the lapsed period.
  - Attend and complete the DC102 class.
  - Pay reinstatement fee.

Reinstatements: The credential will remain in expired status until the completion of the requirements outlined in this policy. The lapsed credential amnesty reinstatement opportunity is available to a lapsed credential holder one time only. Any future lapsed periods will require a retest to earn certification.

Recertification Suspension Policy
A suspension period is intended to allow you the opportunity to complete your expired credentials’ recertification requirements without the loss of the credential. The expired certification will instead be suspended (invalid) until all recertification requirements have been satisfied as defined below.

The suspension shall be provided automatically after 90 days past the expiration date.

You will receive notice of expiration and placement into the suspension period. The suspension shall expire one year from the certification’s original expiration date.

The suspension period will not alter the recertification period dates or change the certification’s original expiration date. BICSI’s website will indicate the credential holder’s suspended certification during any suspended period. If proof of the suspension period is required by someone other than the credential holder (i.e. client or employer), you may log into your BICSI profile for status of your certification.

To view the Suspension Policy, in its entirety, as well as the conditions of suspension, please visit the BICSI Credentialing webpage at bicsi.org/recertify.

The reduction of a wired infrastructure and the growth of data centers for ‘cloud’ computing has provided a guaranteed path for a DCDC™ credential in the near future.

General Policies and Procedures

Code of Ethics

BICSI’s Code of Ethics is based on the principles which assume that societies are governed by a profound respect for human rights and the rule of law. In addition, these principles support the thought that ethics, the criteria for determining what is right and wrong, can be agreed upon by members of an organization and that understanding matters of taste requires sensitivity to cultural norms. An ethical complaint may be filed when there is a concern of a violation of the BICSI Standards of Conduct. Information regarding the process for filing an ethics complaint is in the Procedures and Policies document, which can be found on BICSI’s website at bicsi.org.

Standards of Conduct

BICSI has established the Ethics Committee, the Standards of Conduct and the Code of Ethics to reinforce the following position: It is important that the BICSI members and/or its credential holders exhibit the highest principles of ethical and professional behavior in the provision of their products and services associated with the information and communications technology (ICT) industry. These codes and standards serve to enhance public confidence in the integrity and service of BICSI members and/or credential holders.

Adherence to the 14 Standards of Conduct is mandatory.

As a BICSI member and/or BICSI credential holder, I have an ethical and professional obligation to the association, ICT industry and its consumers. I therefore pledge to:

1. Maintain a high standard of professional conduct.
2. Protect and enhance the reputation of the BICSI organization, the credentialing program and my credential through my actions.
3. Maintain the confidentiality of privileged information entrusted or known to me by virtue of my profession or position, unless disclosure is required by law or agreement.
4. Be accurate and truthful in my dealings with clients and be careful not to misrepresent the quality, availability or ability of the services I provide.
5. Never, under any circumstances, make a recommendation misrepresenting or misstating any other individual's qualifications, abilities or accomplishments.
6. Provide unbiased, accurate and objective assessments for all safety and operational deficiencies that may be discovered during the performance of my services.
7. Refrain from representing competitors to clients, or the public, by the use of false and misleading statements or malicious actions, but rather work and compete with them in a reasonable and professional manner for the benefit and advancement of our profession.
8. Refrain from using false and misleading statements or malicious actions that might injure another person's reputation or bring harm to their person or property.
9. Respect a client’s decision in the selection of competitive services, and continue to offer and provide that client with quality services for as long as is necessary or requested.
10. Serve all members of the public impartially, providing no substandard service based on that individual's age, race, national origin, color, sex, sexual orientation, disability or religious belief.
11. Adhere to all relevant codes, laws, ICT industry standards and BICSI methodologies, where appropriate.
12. Take personal responsibility to ensure that all requirements necessary for the renewal of any BICSI credential that I hold is met on, or before, the expiration date.
13. Be accurate, honest and truthful in the presentation of all educational material or in the preparation of material orders and product availability.
14. I will not misrepresent my BICSI credential nor willingly allow others to do so.

BICSI ANTITRUST STATEMENT

BICSI believes strongly in competition. U.S. antitrust laws are the rules under which our competitive system operates. It is BICSI’s policy to comply in all respects with the antitrust laws.

Accordingly, at any association meeting discussions of prices (including elements of prices such as allowances and credit terms), quality ratings of suppliers, and discussions that may cause a competitor to cease purchasing from a particular supplier, or selling to a particular customer, should be avoided. Also, there should be no discussion that might be interpreted as a dividing up of territories.

An antitrust violation does not require proof of a formal agreement. A discussion of a sensitive topic, such as price, followed by action by those involved or present at the discussion is enough to show a price-fixing conspiracy. As a result, those attending an association-sponsored meeting should remember the importance of avoiding not only unlawful activities, but even the appearance of unlawful activity.
